About Us

DESURGE Pvt. Ltd.
Associated With Divya Enterprises is a rapidly growing firm operating in the field of Design & Manufacturing of Electromechanical Products and their Erection & Commissioning at site; we are adept system developers and solution provider in water industry & pumping machinery.

Major areas of operation

- Water Supply, Water treatment plants, Surge Solutions
- Lift irrigation Schemes, Large Size Pumping System
- Fire Fighting, Oil & Gas

Vision

To make Water Management Easy & Smart through range of Quality Products

Mission

To give best solutions, give realistic commitments and strive to become best, by fusing hard work and smartness

Goal

To have more than 500 installation of our products till March 2031

Our Core Values

Innovation

Safety

Trust

Company at a Glance

180+ Successful Projects in last 5 Years

10+ Contries Served

20+ Yeras of Excellence

Production Strength

- Two 8000 sqft Sized Factories
- 100 HP, 3 phase power supply
- 7.5 Tonns Capacity Overhead Crane
- Welding Machines
- Plasma Cutting Machine
- Gas Cutting devices; Pug Cutting Machine
- Plate Bending Machine
- Hydro Testing Pump
- Pressure Gauges
- Radiography Film Viewer
- Dry Film Thickness Gauge
- Ultrasonic Thickness Gauge

& Much More...

States Served

States we delivered the successful projects in

List of Countries Served

- Rwanda
- Sri Lanka
- Zanzibar
- Uganda
- Ivory Coast
- Jordan
- Oman
- Ethiopia
- Kuwait

Our Key Products

Surge Vessels

Designed to control pressure fluctuations and prevent water hammer in pipelines.
Ensures system safety, stability, and long operational life of pumping systems.

Stop Log / Sluice Gates

High-quality water control gates used for regulating and isolating flow.
Built for durability, leak-proof performance, and smooth operation.

Trash Rack Screens

Efficient screening systems to remove debris and protect downstream equipment.
Ensures clean water flow and reduces maintenance requirements.

Fire-Fighting Equipments

Reliable fire protection systems designed for quick response and safety.
Engineered to meet industry standards and ensure maximum protection.

Fabricated Structures

Custom-designed fabricated structures for industrial and infrastructure applications.
Strong, precise, and built to meet specific project requirements.

Dismantling Joints

Designed to facilitate easy installation, removal, and maintenance of valves and pipeline equipment.
Provides flexibility, alignment adjustment, and reduces stress on piping systems.

We are Approved Make in WRD, Maharashtra for Surge Vessels, Stop Log gates, Trash rack Screens & Dismantling Joints

We also trade in

- Electromechanical Products
- Valves

Our Other Services

- Surge Analysis
- Electromechanical Design
- Annual Maintenance Contract

Our Premium Users

Water Resources Department Maharashtra

Water Resources Department Madhya Pradesh

Maharashtra Jeewan Pradhikaran

MIDC Maharashtra

Our Premier Clients

Key People

Dr. Pradeep Mandre
CEO

CEO with 46+ years of experience in pumps and water projects. Known for innovation, strong technical knowledge, and practical problem-solving on site.

Mr. Omkar Mandre
Business Development Head

Instrumentation engineer skilled in automation (PLC, HMI, SCADA), project planning, and procurement. Experienced in machine design, commissioning, and pump refurbishment.

Mr. Swagat Kulkarni
Production Head

Engineer with a strong manufacturing base, focused on site erection and commissioning, Strong in teamwork and handling heavy equipment, DG sets, panels, and installations.
